

**PATIENT
ENGAGEMENT
SOLUTIONS**

Exam Room Display

Show exam and X-ray results and provide entertainment for patients while they undergo procedures.

Information Display

Share critical health information, news and tips to promote goodwill with patients.

Waiting Room Display

Give patients a great first impression by displaying doctor profiles and listing additional services.

Wayfinding & Directories

Display directories and maps that allow patients to easily navigate their way through your medical facility.

ENGAGEMENT SOLUTIONS

Content Options

Curated content such as health tips, trivia and community events reduce wait times, add value to the patient experience and build stronger relationships.

Custom content includes media that's tailored to your specific practice e.g. doctor profiles & office spotlights for targeted patient engagement.

Fully Managed Patient Experience

Mvix's turnkey solution provides curated and custom content to reinforce the practice's brand and educate patients, thereby improving profitability and patient engagement.

The Brand Experience Solution takes on an integrated communication strategy of engaging patients both onsite at the medical practice and online on social media.
