## How to File a Complaint

1 Gather your paperwork  
related to the purchase

- Receipts
- Contracts
- Warranties
- Order confirmations

2

### Write/call/e-mail:

- Contact the local seller
- Contact corporate offices/consumer affairs departments
- Contact 3rd parties (state licensing boards, consumer protection offices, local regulators)

3 Take legal action  
Resolve your complaint in court

Visit [www.usa.gov](http://www.usa.gov)  
for more information

# Features

- Display real-time docket information for appointments and meetings
- Inform visitors about security and safety protocols
- Showcase information about courthouse personnel
- Display floor plans to help visitors navigate and reduce congestion
- Show court announcements, room changes, and other schedule adjustments
- Hundreds of customizable templates with animations
- Manage remotely over the internet from anywhere
- Includes both interactive (touch) and non-touch options
- Maintain branding consistency between the court and its district
- Eliminate costs associated with printing resources

# What to Display

Court Docket    Share and update daily dockets and other case information

---

Court Info    Display courthouse rules, guidelines, and announcements

---

Wayfinding    Direct visitors with maps and directories for easier navigation

---

Transit    Display live wait times for metros, buses, subways, shuttles and more

---

RSS Feeds    Automated content feeds for video, movies, images, and audio from your channels

---

Alerts    Show emergency and CAP alerts e.g. amber alerts, snow predictions etc.

---

News    Show curated news feeds and weather reports

---

Weather    Display forecasts and current weather conditions

---

Traffic    Show local traffic conditions and potential congestion issues

---

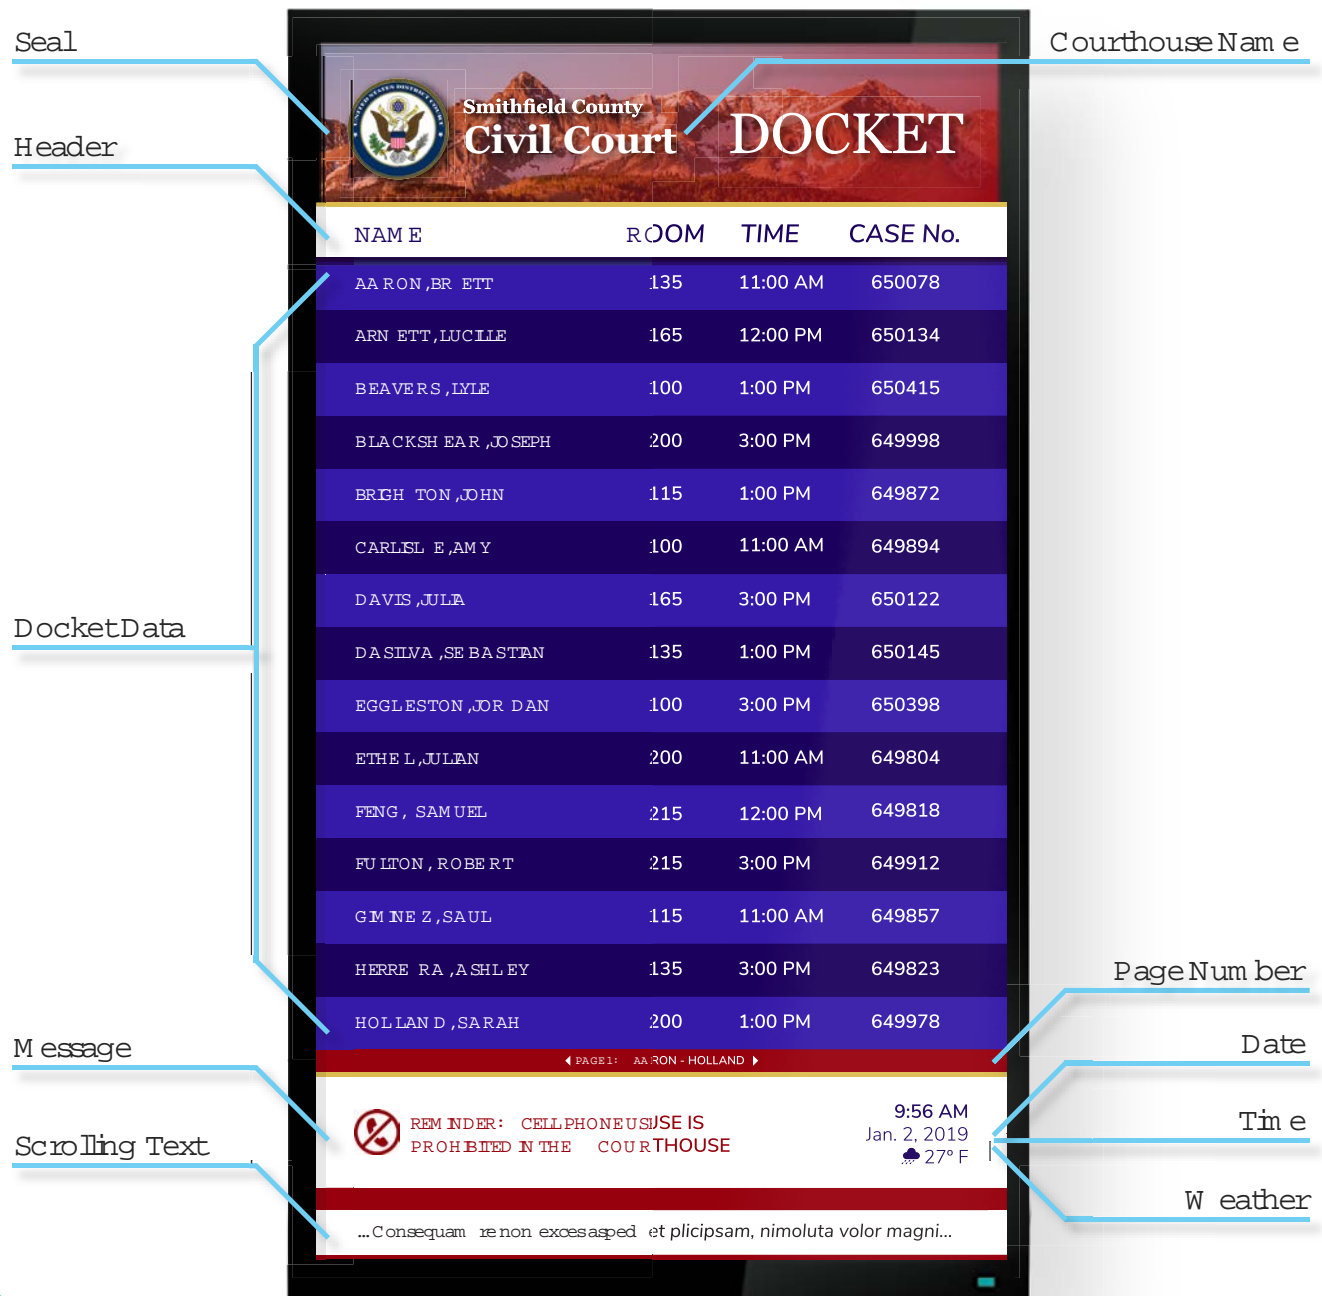

Court Branding    Display the court name, seals, and fonts

# Anatomy of a Docket Display

# Components of a Docket Display

## Commercial-grade Display

Selecting the display/screen is a critical aspect of building your court docket display.

The three questions to ask yourself about your display are:

1. Does it need to be touch-enabled?
2. What size is appropriate for my space?
3. Do I need commercial-grade quality and warranty?

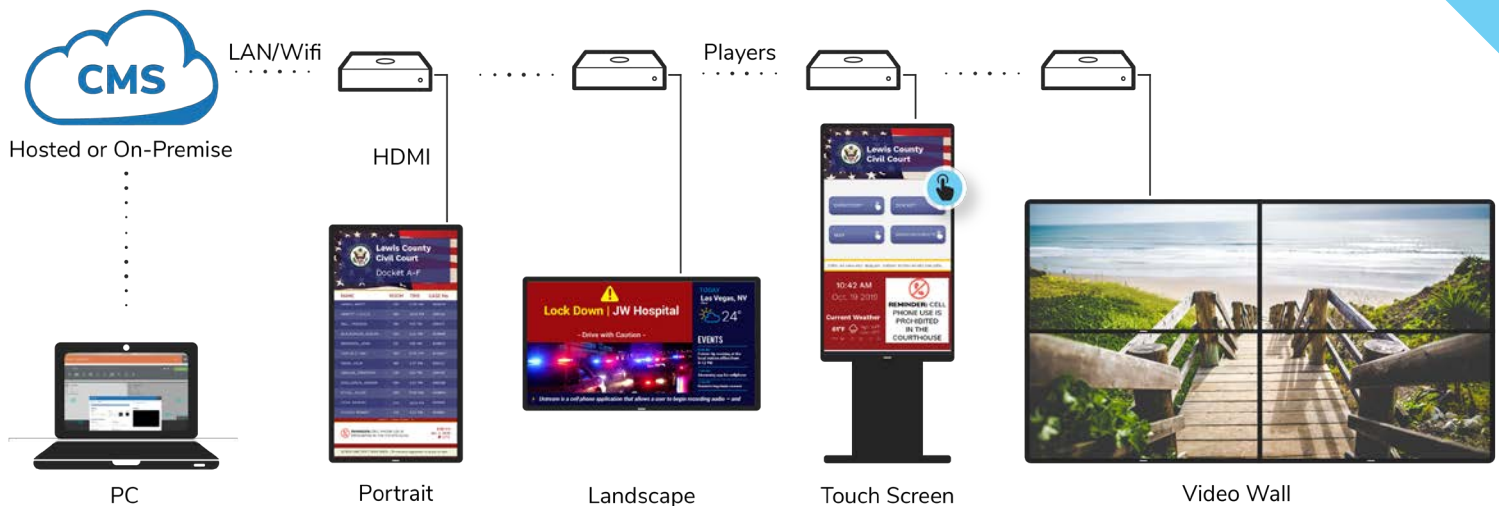

## Media Player

The media player is a small device that is connected to the display via HDMI and to the internet via Wi-Fi or a wired connection. It caches the content you'll display on your court docket displays so they will never be blank, even when there is no internet connection.

## Software

Digital signage software allows you to create and schedule the messages, graphics, and feeds that will display on your screens.

The software will often include pre-built templates that you can customize as well as content apps (think weather, news, sports) that you can drag and drop into your "zones" i.e. sections within the screen that you've delineated for a specific use.

## Mounts

Mounting solutions have functional and aesthetic benefits:

1. Do you need to be able to adjust the angle of your sign?
2. Are you planning for a video wall or single display?

Naturally, you'll want to consider things such as cost, support, reputation for quality, and ease of installation when evaluating mounting solutions.

## Enclosures

Enclosures complement your decor and showcase eye-catching content.

Behind the scenes, the enclosures enclose a custom rack and offer space to hide equipment such as a digital signage media player and cables.

The enclosures are designed to be aesthetically pleasing, but also to provide ventilation, hide display bezels, expose power buttons, and make accessing digital signage media players as easy as possible.

- VESA® 200 x 200 up to 600 x 400mm compatible
- Eight-way tool-less adjustment for flush alignment
- Removable front cover and pull-out mount for ease of access
- Low profile (ADA compliant) design
- Aesthetic options include multiple colors, vinyl wraps, etc. to promote brand awareness
- Pre-assembled to simplify installation
- Stainless steel construction with mounting hardware
- The enclosures can come as touch or non-touch

# How It Works

1

## Install the Media Player & Screen

The media player connects to the Internet wirelessly or via an ethernet cable, and to the screen using an HDMI cable.

2

## Create Content/Customize Templates

The web-based software, accessible from anywhere, enables you to upload and/or create your court docket display and add content like weather, traffic etc.

3

## Publish & Display Content

Once the content is configured via the cloud software, the media player auto-downloads it and displays the court docket content on the screen.

4

## Update Content/Reschedule

Remote access to the software allows you to easily update your court docket display and playback schedules on multiple screens, all from one login.

# Total Cost of Ownership

## Cost of Hardware

The cost of hardware will depend on the requirements of your implementation. A strong recommendation is to get a commercial-grade display that can handle being on 24/7. Commercial-grade displays also come with full warranties.

## Cost of Content Creation

There are two ways to account for cost of content. You can have your court/county's design team create the content or you can pay an agency or freelancer to create the content. The second option (which is usually the cheaper one) is to select digital signage software that include customizable content templates, feeds or an app store.

## Cost of Installation/Implementation

Will your court docket display vendor provide turn-key service i.e. handle deploying your content, mounting your sign and ensuring network connectivity? If not, include these estimated costs. If you're considering doing it yourself, take into account the expected time required to get your court docket display up-and-running.

## Ongoing Support and Training

Many digital signage providers will include service and support as part of your cost. Be clear on the length of this agreement and have a plan in place for ongoing support and training. If this is an internal resource, calculate what percentage of their time will be allocated to troubleshooting and on-boarding new internal resources to the digital signage work flow.

## CapEx or OpEx?

What type of pricing model works best for you? Getting a subscription will spread the cost out over time. Conversely, a one-time purchase may be easier even though the initial cost is higher.
